Consensus poll for TheDAO Hard Fork by ether voting.

- Low technical barrier.
- No need for sending out ether.
- No lock time for ether.

Poll of TheDAO Hard Fork.

Consensus Enforcement

What we learned

Forced by violence

Real world

Free to choose

Crypto world

Split

In terms of:

- Price**
- Talents**
- Resources**

To be or not to be

Future plans

To vote

Community-wise stake-affecting issues.

- Yes or No to controversial hard/soft forks
- Fundamental overhaul, e.g. POS
- Widely-affecting issues, e.g. rent for smart contract, Ethereum Name Service, etc.

Not to vote

Too technical stuff.

- Hard/soft fork details
- Sharding implementation details

Non-essential issues

Take-home Points

- Blockchain governance is **HARD**.
- Voting results are likely **NOT** enforceable.
- Deal with caution.

See you on ***BLOCKCHAIN***

Thank you for your time
